

## ***Beverly Kelley***

East Adams Rural Hospital and District Clinics would like to introduce Beverly Kelley, our highlighted employee this week.

Beverly Kelley is the housekeeper at Lind Medical Clinic. Beverly's duties include maintaining cleanliness at the Lind Medical Clinic.

Beverly began working for the District in 1997 as a NAC and file clerk. She has been cleaning the Lind Medical Clinic since 1998.

Beverly was born and raised in Salem, OR. She and her husband moved to Lind in 1974 for his work. Beverly has four children.

The part of Beverly's job that she likes the best is not having to drive to work and even being able to walk to work. She decided to go into healthcare when she worked at Life Care and was able to work with people that she knows and get them well.

Beverly's goal is to save money so that she can retire and stay home. Her greatest accomplishment was taking the NAC class and passing both the written and hands on sections.

Outside of work, Beverly is the secretary of the Lind Senior Center and the treasurer of the Lind Community Church. One of her hobbies is singing with groups.
