

Jeff Reynolds

East Adams Rural Hospital and District Clinics would like to introduce Jeff Reynolds, our highlighted employee this week.

Jeff Reynolds is the District Clinic Manager. His duties include overseeing the office staff, clinic nursing, and the provider schedules.

Jeff began working for the District in November of 2004 as the Director of Patient Accounts.

Jeff grew up in Priest River, ID and is one of five children. Jeff and his wife moved to Ritzville because of his employment with the District. He has five children and seven grandchildren.

Before Jeff's career in healthcare, he grew up in the family logging business. After teaching himself healthcare billing he went to work for Newport Hospital and made his career change. One of Jeff's goals is to instill patient care as our #1 goal.

Outside of work Jeff enjoys outdoor activities including hunting and fishing. In his free time Jeff and his wife have been working on remodeling and landscaping their home and hope to someday retire in North Idaho.
