

Joyce Shepherd

East Adams Rural Hospital and District Clinics would like to introduce Joyce Shepherd, our highlighted employee this week.

Joyce Shepherd is the Clinic Data Manager. Her responsibilities include managing the electronic medical record files for the electronic health records. In addition, she also works as a health care assistant in the clinic, an EMT and occasionally works in the clinic front office. Joyce began working for the District in July of 1992.

Joyce was born in Fontana, CA. Her family lived there until she was in sixth grade. They then lived in the Philippines for two years. They moved to Longview, WA where she graduated from high school. In 1986, her family moved from Spokane to Ritzville when her husband was assigned to Ritzville.

Joyce has one sister and three brothers. She has been married to Mark for 32 years and they have three children (all grown). They also have one grandchild and one on the way.

One of Joyce's goals is to finish remodeling their home. She has always enjoyed the medical field. She was a volunteer (candy striper) while in high school and decided to continue on in the field. The best thing about her job is working with the patients.

Outside of work, Joyce enjoys quad riding, photography, working with computer graphic design. She also has a homemade candle and soap business. Her greatest accomplishment is being married for 32 years and raising a family of three.
