

# Linda Bright

East Adams Rural Hospital and District Clinics would like to introduce Linda Bright, our highlighted employee this week.

Linda Bright is the Clinic Receptionist. Her responsibilities include answering phones, scheduling appointments, medical record requests, and occasionally working with the providers and nurses in the clinic.

Linda was born in Sandpoint, Idaho and moved to Thompson Falls, MT when she was in 7<sup>th</sup> grade, where she graduated from high school. She moved to Ritzville in 1972 when she and her husband stopped to visit his parents on the way to Seattle. She has been here ever since.

Linda has two younger sisters and one younger brother. She has a daughter who lives in Ritzville and a son who lives in Grants Pass, OR. She has five grandchildren.

Before Linda started working for the District in March 2006, she had worked at Perkins for 27 years.

Some of Linda's goals are to try to save as much money as she can for retirement, spend more time with her grandchildren, stay healthy, and live a long life. She decided to go into healthcare because she was offered a position based on the experience she has working with the public at Perkins for so many years. Her family encouraged her to accept the position because of the benefits and less physical stress. The two best things about her job are that she learns new things everyday and seeing all of the patients.

Outside of work, Linda continues to work at Perkins on the weekends and cooks and bartends at the bowling alley one night a week. She enjoys spending time with her granddaughters and goes to the casino occasionally. She also spends a lot of time with her cat, Maggie. Maggie has been a lifesaver for Linda.
