

# Shaikh Hamid

East Adams Rural Hospital and District Clinics would like to introduce Shaikh Hamid, our highlighted employee this week.

Shaikh Hamid is the Radiology Manager at the District. Shaikh's duties include performing tests and overseeing the radiology, CT, and EKG departments.

Shaikh was born in India and grew up in Pakistan. After he finished high school he moved to the USA. Shaikh went to medical school in Minnesota and then completed his internship in Montana. He moved to Ritzville when he was hired by the District in 1973 as a laboratory and radiology tech. While he was working for the District he received his Bachelor's Degree in Business Administration from EWU. He has been with the District for 35 years.

Shaikh has four brothers and one sister. He is the youngest. Out of his 5 siblings, he has one living brother that is currently in Pakistan.

Shaikh's goal is to win the Mega Million Lottery. His two greatest accomplishments were getting his US Citizenship and marrying someone local (who passed away at a very young age).

Shaikh got into healthcare because he likes to help people when they are not feeling their best. This is the best part of his job. Outside of work, he belongs to the Eagles Club and likes to go for walks, keeping his sports car in perfect shape, watching basketball, and going on an annual trip to Nevada for gambling.
