

Tina Steinmetz

East Adams Rural Hospital and District Clinics would like to introduce Tina Steinmetz, our highlighted employee this week.

Tina Steinmetz is a CPR instructor for the District. Tina began working for the District in the Business Office in 1989, became an EMT in the late 1990s, and became a CPR and first aid instructor in 2002.

Tina was born in Vancouver, WA. She grew up in Sprague and moved to Ritzville in 1986 when she married locally.

Tina has three brothers, one older and two younger. She has two children, Stephanie, and Christopher.

Tina's goal is to continue her education. She started in healthcare because she had a desire to help people and had an opportunity to understand more about healthcare in general. The best thing about her job is the flexibility and the opportunities to learn more and to teach.

Tina's greatest accomplishment is first and foremost her children. She is very proud of both of them. Outside of work, Tina is a member of the Ritzville Community Theater. She also enjoys reading, fishing, boating, hunting, and trap shooting.
